TracerEIP - QR

The Ultimate Solution for Quick & Easy Survey and Audit Data Collection Through QR Codes.

Fast Response for Service Recovery

Address issues before they impact guest satisfaction.

Efficient Operations

Streamline data collection and task assignments across multiple departments.

Actionable Insights

Use collected data to identify trends, improve services, and optimize operations.

Flexible & Scalable

Suitable for any environment—from public spaces to healthcare facilities and commercial properties.

How Tracer QR Works

Place QR codes in key areas

- Public restrooms, waiting rooms, building atriums, parking garages, and more.
- Visitors scan the code using their smartphones—no app required.

Immediate Issue Reporting

- Report cleaning, maintenance, or service issues instantly.
- Real-time alerts enable immediate response by the operational team.

Customizable Process

- Our team collaborates with you to design custom surveys and workflows tailored to your environment.

Ready to Elevate Your Operations? Let us design a custom solution to meet your needs!
