

**LIGHTHOUSE**  
Environmental Infection Prevention®

**SCOUT ES200\***  
HIGH-EFFICIENCY TOUCHLESS DISINFECTION

# Next-Generation Disinfection. Now, Smarter.

*MAXIMIZED UPTIME & RELIABILITY*

*TAILORED PROTOCOL DESIGN & TRAINING*

*IP INTELLIGENCE PLATFORM*

*\*Scout is a patent pending system*

# SCOUT ES200

HIGH-EFFICIENCY TOUCHLESS DISINFECTION

## PRODUCT OVERVIEW

See full user manual for more information  
*Patent pending under multiple patent applications*

## DESIGNED FOR MAXIMIZED UPTIME & RELIABILITY

- 1 Electronically controlled pump optimizes time and material efficiency for **maximized cost savings**.
- 2 State-of-the-art construction materials and in-field service capabilities **boosts durability** and **eliminates downtime**.
- 3 Precision 316 stainless steel nozzle components result in **superior droplet deposition, surface coverage, and surface dwell times**.
- 4 2-gallon detachable tank and 2x best-in-class batteries provide **6.5+ hours of extended spray time**.
- 5 Ergonomic, adjustable harness system and advanced electrical isolation provide **all-day comfort** and **enhanced safety** for operators.
- 6 6.8kV electrostatic capabilities provide **consistent and even application** of chemistries and disinfectants across all facility surfaces.

# SCOUT ES200

HIGH-EFFICIENCY TOUCHLESS DISINFECTION

## PRODUCT OVERVIEW

See full user manual for more information  
*Patent pending under multiple patent applications*

### OPERATIONAL INTELLIGENCE PLATFORM

#### SCOUT COMPANION APP

The Scout ES mobile app is a powerful tool that allows operators and facility management to **record, analyze, and leverage** disinfection practices throughout their facility.

#### DATA CAPTURE & ANALYTICS

Once Scout is connected to your smartphone via Bluetooth, Scout will automatically capture **sprayer usage, chemistry output volume, location, and duration** of spray sessions.

#### BIOLOGICALLY CLEAN & SAFE

Scout makes it easy to convert your disinfecting efforts into valuable, actionable data in real time, ensuring the **cleanest** and **safest** possible environment for your facility staff and guests.

**SCOUT'S HIGH-EFFICIENCY APPLICATION SYSTEM ALLOWS FOR 12,000 SQUARE FEET OF COVERED SURFACE AREA PER GALLON OF CHEMISTRY**

### DISCOVER THE POWER OF LIGHTHOUSE CONNECT

- 1** Schedule and assign routes for your team, then capture their progress in real time for **quick** and **convenient proof-of-service**.
- 2** Set targets for your team to complete during their routes to **gamify the user experience** and set them up for success.
- 3** Measure the recorded variance between spray targets and observed behavior to **ensure compliance**.
- 4** Integrated maintenance reminders and on-screen instructional modules results in **maximized uptime** and **reliability**.
- 5** Empower your team with quick, intuitive **instructional courses** on infection prevention best practices.
- 6** Track inventory, resolve discrepancies, and improve your facility environment with **real-time reporting** direct to facility management.
