

SCOUT ES200*

HIGH-EFFICIENCY TOUCHLESS DISINFECTION

TECHNICAL SPECIFICATIONS

See full user manual for more information

OVERVIEW

Your Scout ES200 is the next-generation disinfectant applicator that delivers best-in-class **efficiency**, **reliability**, and **performance** to maximize your cleaning and disinfecting efforts in any environment. Pairing to the **Scout ES App** for Apple or Android devices empowers you to capture, report, and leverage key disinfection data to optimize the efficiency and efficacy of your infection prevention programs.

Scout ES200 is designed for use with Lighthouse EIP's **Defender®**, **Vigilant®**, and other **AHP-based chemistries**, and will provide consistent and even application of disinfectants to all your facility surfaces, helping to break the chain of infection.
